About Us:			

Our service is situated in a rural area. What makes it so special is that we are like a family. The service is small with an attendance of between 20 to 30 children each day. Our staff have formed a close relationship with the children as they also work alongside them in the classrooms. This allows staff to give additional support including assisting with homework.

All family members are warmly welcomed and their involvement in the centre appreciated. Recently we moved into our new premises which allow the children to also utilize the refurbished Parish Hall. The children have lots of space for building cardboard cubby houses, do dancing and gym routines, participate in craft activities and games. The children also enjoy outdoor sports on our freshly resurfaced grassy oval.
